**Re: *Ex Parte* Presentation
WT Docket 02-55**

Dear Ms. Dortch:

On Thursday, April 22 and Friday, April 23, 2004, Steve Largent, President and CEO of the Cellular Telecommunications & Internet Association, spoke via phone with Chairman Powell to discuss issues related to the ongoing 800 MHz proceeding.

The Chairman and Mr. Largent discussed issues involving the 800 MHz proceeding, including the legal risks involved in granting spectrum to Nextel at 1.9 GHz. Mr. Largent emphasized that the Commission should continue to consider other alternatives in the record that are less risky legally, and do not involve granting Nextel spectrum at 1.9 GHz.

Pursuant to Section 1.1206 of the Commission's Rules, this letter is being electronically filed with your office. If you have any questions concerning this submission, please contact the undersigned.

Sincerely,

Diane Cornell

Diane Cornell
